

K-Love has been a source of strength and encouragement to my life daily. It speaks of the truth of God's word which is critical to me and many others in this day and age. If K-Love was not broadcast daily on our radio, I know a lot of people that would be extremely discouraged and disappointed. I believe it is in the public's best interest to have K-Love continue to be on the radio for the main reason that they share God's truths with people at all times of the day and night.
